

PS/O - 125-64
27 April 1964

MEMORANDUM FOR: Assistant for Plans and Development, NPIC

ATTENTION: [REDACTED]

FROM: Chief, CIA/PID (NPIC)

SUBJECT: Evaluation of [REDACTED].0002' Reticule

25X1A
1. The [REDACTED].0002' Reticule has been evaluated by PID analysts who have determined it to be of value in making certain measurements both on T and KH materials. "Thinner" lines on the measuring scale would be advantageous, however, if such a change were possible.

2. We appreciate being made aware of this item and intend to include approximately 10 of them in our Fiscal Year 1965 purchases.
